SKILLS

- **Languages:** Python, JavaScript, C, C++,
- **Technologies:** HTML, CSS, Bootstrap, Node.js, React, Express.js
- **Databases/Tools:** MySQL, PostgreSQL, MongoDB, Git, GitHub
- **Soft Skills:** Problem solving, Team collaboration

PROJECTS

Finance and Split Management System (FMS) | GitHub (owemate.vercel.app)

Mar 2026 - Apr 2026

- Built a scalable full-stack Finance Management System supporting **5+ features** concurrently across platforms.
- Integrated **100% secure authentication using JWT** with **two user roles** and robust session management architecture securely.
- Validated Supabase DBMS and Resend Mail verification by executing **50+ successful test transactions** across multiple scenarios end-to-end.
- Developed **10+ RESTful APIs** for user management, transactions, and expense registrations using Node.js and Express.js, enabling efficient and scalable backend services.
- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Supabase API.

Personal Website Portfolio | GitHub(pfdivyansh.in)

Dec 2025 - Jan 2026

- Architected a frontend portfolio using HTML, CSS, Javascript and Bootstrap, supporting up to **50+ concurrent users** without server loading.
- Engineered **10+ reusable UI components** for project sections, navigation, skills, experience, and contact forms, improving frontend **scalability and maintainability**.
- Implemented **5+ interactive** sections with **responsive layouts and smooth navigation**, ensuring a consistent user experience across desktop, tablet, and mobile devices.
- **Integrated project links**, social profiles, and contact functionality across 4+ sections, enabling recruiters and visitors to easily explore projects and connect.
- **Tech Stack:** HTML, CSS, JavaScript, Node.js, WebRTC, Tailwind CSS

URL Shortner Frontend | GitHub

July 2026 - Aug 2026

- Developed a responsive URL shortener frontend using **React and JavaScript**, efficiently implementing modern SaaS-style UI components.
- Designed a comprehensive dashboard layout with **10+ reusable components**, including navigation, URL management, analytics, and user profile sections.
- Implemented interactive layouts for **3+ core screens**, including authentication, dashboard, URL creation, analytics, and settings.
- Structured the frontend with reusable components and responsive layouts, effectively supporting **desktop, tablet, and mobile** interfaces.
- **Tech Stack:** React.js, JavaScript, Tailwind CSS, HTML5, CSS3, React Router, Git, GitHub

CERTIFICATES

- | | |
|---|----------|
| • Computer Programming (C language) GeeksForGeeks | Dec 2025 |
| • Mastering DevOps Certification by Infosys SpringBoard Infosys SpringBoard | Mar 2026 |
| • Cloud Computing Certification by Infosys SpringBoard Infosys SpringBoard | Aug 2026 |

ACHIEVEMENTS

- Solved more than **200** programming problems on online coding platform **IamNeo** during regular practice and learning.
- Qualified for **Final Round** in a college hackathon with an innovative **web solution prototype**.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; CGPA: 8.93

Phagwara, Punjab
